

About this book

This book is a practice course in multiplication. It starts with the smallest products - 2×1 , 3×2 - and works up through two-digit, three-digit and four-digit multiplication, all the way to long multiplication with a four-digit answer.

The skills are in the order they are usually taught: single-digit products first, then the easier two-digit by one-digit products, where there is one step to work out, and the harder ones, where the partial products have to be added together. The same pattern is repeated for bigger numbers. Every skill comes with five worksheets, one for each day of practice.

MathCardo Practice Books - Book 3 of 6

These books are meant to be used in order. Each one is a complete course on its own, and each one picks up where the last one left off.

How to use this book

Every skill comes with five worksheets, and one a day gets the most out of them. Use the answer book to mark the work, and if a worksheet is too hard, come back to it later.

The series

01	Addition	From $1 + 1$ to four-digit column addition.
02	Subtraction	From $1 - 1$ to four-digit column subtraction.
03	Multiplication	Times tables through to long multiplication.
04	Division	Sharing and grouping, up to four-digit division.
05	Times Tables	Every table from 2 to 12, and the mixed pages.
06	Fractions	Adding, subtracting and simplifying fractions.

Answers

Every worksheet in this book has its answers in a separate answer book, free to download. It is the same book with the answers filled in under the line.
