

About this book

This book is a practice course in subtraction. It starts with single-digit take away - 5 - 3 - and works up in size and difficulty until the last pages are four-digit column sums with borrowing.

The skills are in the order they are usually taught. Single-digit differences come first, then two-digit differences that do not need borrowing, then differences that do, and then the mixed ones where the child has to spot the borrowing themselves. Every skill comes with five worksheets, one for each day of practice.

MathCardo Practice Books - Book 2 of 6

These books are meant to be used in order. Each one is a complete course on its own, and each one picks up where the last one left off.

How to use this book

Every skill comes with five worksheets, and one a day gets the most out of them. Use the answer book to mark the work, and if a worksheet is too hard, come back to it later.

The series

01	Addition	From $1 + 1$ to four-digit column addition.
02	Subtraction	From $1 - 1$ to four-digit column subtraction.
03	Multiplication	Times tables through to long multiplication.
04	Division	Sharing and grouping, up to four-digit division.
05	Times Tables	Every table from 2 to 12, and the mixed pages.
06	Fractions	Adding, subtracting and simplifying fractions.

Answers

Every worksheet in this book has its answers in a separate answer book, free to download. It is the same book with the answers filled in under the line.
